Testing Room

The place is sufficiently big;
the photos are DEMO.

In any study, the capacity
can be changed from 20 to
30.

Project Management Room

There is a door between the testing room and project management (PM) room. The testing room can be viewed from PM room via a closed-circuit video record.

Cloased-circuit Viewing from PM Room

The installed system is only for viewing purposes. It can be integrated into SKYPE, and video-streaming.

CLT Venue

Isolated Workspace

The doors are closed upon the session starts and the room is isolated entirely.

CLT Venue

Terrace

Arranged terrace area can be used for interview-breaks by respondents, along with the lobby.
